

Adjunct Professor Position in Industrial Engineering and Management

Grenoble INP Génie industriel is the school of Industrial Engineering and Management of Grenoble Institute of Technology, University of Grenoble-Alps. The International Chair of Industrial Engineering and Management is opening two positions of Adjunct Professor, each for the coming 3 years (2020-2022), with a one month a year obligation of residence in Grenoble. The selected professors will then be offered the position for 3 one-month periods to be scheduled over the coming three successive years.

To apply, the candidate must have a PhD in the field to be taught.

During each of the one-month period, the Adjunct Professor will have to teach one course to our 1st year master students (one subject). Students are first year graduated students according to Bologna EU model. The Adjunct Professor is strongly encouraged to carry out research in one of our associated research centers (see <http://genie-industriel.grenoble-inp.fr/research/>)

Course Specification

The course taught is of a 2 ECTS credits format, for a Student Workload of 50 h.

Subjects: Elective subjects in Master level of Industrial Engineering and Management. Topics related to industry of the future will be well come. Several disciplines and fields are receivable: Operation Research, Optimization, Economics, Sociology, Management, Manufacturing, Engineering Design Mechanical, Engineering, Inventory Management, Organizational Behavior, robotics, etc.

Prerequisites should be defined by the adjunct professor.

Course organization

The adjunct-professor will have a 24h load of direct students-contact, a maximum of 30 students in a group, with possible small groups in lab and exercise (15 students) when required.

Teaching language is English

Session are organized in one hour and a half or three hours' slots.

Students must be evaluated and a final grading is required. At least 30% of the grade should be an individual evaluation, i.e. no more than 70% may come from group evaluation.

**Period: From Week 18 (Mon 27th April 2020) to Week 23 (Frid 5th June 2020)
(similar period for 2021 & 2022)**

Adjunct Professorship Fee includes

- Travel in economy-class from your university or residence to Grenoble. (max 1.500€)
- A one-month accommodation in an apartment for two adults or a family.
- A grant (Chair of Industrial Engineering, Fondation pour l'Université de Lyon):
 - 1200€ for a junior professor (post-doc, etc.)
 - 2000€ for a senior professor

Application process

Deadline for application 31st January, 2020, 6 pm CET time zone

Results publication 28th February, 2020

- Complete CV including publications
- A proposition of a Course (cf. Course description form)
- A letter of support from your home university
- A letter of support from one researcher in any Grenoble Research Center (your contact person for research).
- A one page research proposal

Application should be send by Email to christine.ancey@grenoble-inp.fr
